GREETINGS and BEST WISHES - -

HERE WE ARE again, with another growing season gone, glads all harvested, cured and ready to clean, and getting ready for a big shipping season. Right at this time, I want to thank all of you who ordered bulbs or bulblets from me this past season, and I hope they grew well, and performed well for you, so that I will hear from you again this season.

Contrary to 1949, this year of 1950 was entirely different. After a long wet mild winter, spring dragged along much later than usual and we did not get any glads planted until about the first week in May. It did not actually warm up until almost Decoration Day, and so we were almost 3 weeks later than usual.

In my private Trail Garden, I grew something more than 400 of the recent, and 1950 introductions, along with over 100 seedlings which were sent in for trial. In this way, and by growing them right alongside of the older proven varieties, can we determine the true value of these new things. Some leeway must be given to those varieties, which come from distant points, for most growers will agree that climatic conditions have a varying effect on the performance of a glad.

I keep a large notebook at hand, and each morning from the time the glads start to bloom, I walk through the garden, and evaluate every new and recent variety as it blooms. Sometimes the first spike does not come up to expectations, but the second spike may prove the variety to be up to its advertised merits. It usually requires two seasons of growing in your own soil, to properly evaluate a glad, which has come from some distance, and so we do not condemn them the first season, and neither should anyone else. Just remember that even if you were moved from your present location, to a point 500 miles distant, you too, might not adjust yourself to your usual standard, for at least 3 or 4 months.

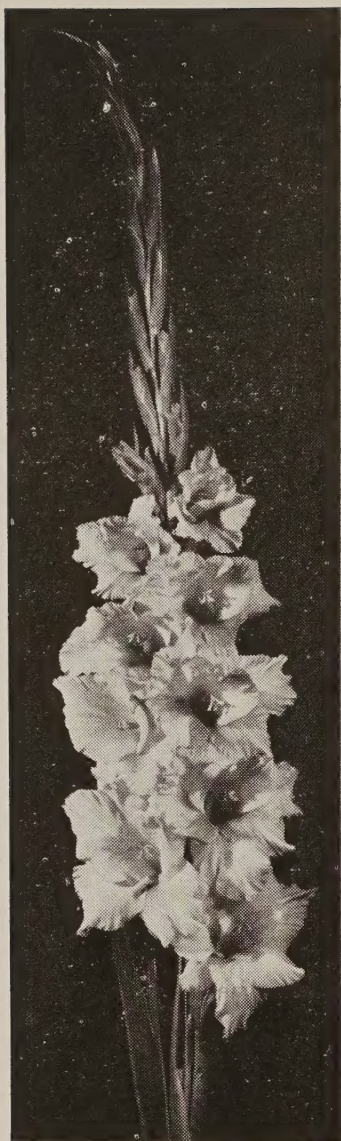

As advertised, here is a running account of my experience with the new and recent introductions, as they performed for me, under ordinary field conditions, just good agriculture, no special treatment, and only top-dressed once, with a 4-12-8 commercial fertilizer, which was broadcast over the entire field, and not side dressed.

With spring weather prevailing throughout the winter months, loads of rain, floods, etc., and continued cold weather, planting did not get under way, until May 3rd. We normally get started to plant in early April. However, even with the late cool spring, the first spikes were cut on July 7th, which after all was only about a week later than usual. Rhett Butler, Hunress, Gold Dust, first to bloom, with Concord, Ethel Cave Cole, Snow Princess, and Blue Beauty following them closely. Just how any commercial cut-flower grower can afford to be without Rhett Butler amazes me, for it is always FIRST. Always straight, always good, opens well in water, tall, clean, brilliant scarlet, that the florists all love, makes it the finest early commercial in commerce.

The usual surprises are of course occurring. Citation, (supposed to be a 90-day glad) has two spikes with 8 open, and they are tall, straight and beautiful. Florence Nightingale, the wonder white that will eventually replace every other commercial white, all in spike, and will come in with Snow Princess. If you are not growing Forence in quantity, you are missing the greatest white that has been introduced to date. Gaylore, another marvellous workhorse, is in spike., 66 days from planting, and here is another glad that every commercial grower should have.

Firmament is in spike and looks like it would replace Blue Beauty because it appears to be perfectly healthy and somewhat taller and earlier.

Here are some proven varieties which I honestly believe you should have if you are growing for the cut-flower market. I have dozens of testimonials from growers in all sections of this country and Canada who are growing these varieties in quantities and swear by them. Most of them are good exhibition flowers too, but they serve as commercials perfectly.

COLONIAL DAME

EASTER MORN

WHITES: It is Florence Nightingale first, last and all the time among the popular priced whites. Whether it is Florida, California, Maine or Washington it does well and is now priced within reach of all. **WHITE GODDESS** and **WHITE CHRISTMAS** are good. **VIOLET DICKENSON** is the finest basket glad we have, and the newer **ANGELA LYNN** and **EASTER MORN** will be heard from in many show reports. Several 1951 introductions are definitely improvements. **SIERRA SNOW** is the tallest and will hold the most open. The new **EVENING STAR** is one of the most beautiful. **WHITE STAR**, is apparently the earliest, for it came into flower in 60 days flat. A swell white too.

YELLOWS: This class is coming up rapidly, and we saw more good Yellows in the shows and in the hybridizer's gardens this season than ever before. However, for the commercial grower, I don't know how you can beat such Yellows as **SPOTLIGHT**, **YANGTZE**, **GOLDEN ARROW** and the new **ROBERT ALAN** and **CYNTHIA**. One of the recent and good early Yellows which looks better every season is the much discussed **WORLDBEATER** which comes very well for us and is now available in sufficient quantities to give it a good trial. The 1951 introduction **GOLD** is more gold than yellow, but has the finest color of anything in its class and is a marked advance in this color. Among the little fellows, **YELLOWBIRD** and the 1951 introduction **YELLOW SEA** are the finest.

ROSE PINKS: The newer JUNE ROSE will top everything for an earlier rose commercial. Strong, wonderful color and will eventually be the early rose glad grown by everyone. DARLA is perhaps earliest and a real cutter. HUNTRESS is good from medium corms, NOWETA ROSE will really give you a thrill, and of course old dependable BURMA still wins champion spikes regardless of its vintage. The new LILA WALLACE while small is one of the most marvelous colors I have ever seen with its sheer, velvety deep rose color, it's a "must have". AMERICAN BEAUTY which has been overlooked by some is still one of the finest. HI HO, really a rosey salmon, but should come in here, is excellent. MISS CHICAGO a very beautiful and healthy glad.

LAVENDERS: Lavenders or Mauves as they are called in Canada are improved tremendously. No commercial list would be complete without ELIZABETH THE QUEEN, ABIGAIL a good one, the newer LAVENDER LACE looks very good, FALCON and MADELINE HEAVY are excellent, while the newer BRIDAL ORCHID will eventually be grown by everyone, from the hybridizer who created SPIC AND SPAN it is bound to become just as popular. The new VALDA a huge, deeper lavender than ELIZABETH THE QUEEN with better stretch and MARTHA WASHINGTON a heavily ruffled lavender with creamy throat are extra good. COLONIAL DAME still winning on the show tables and has one of the longest flower-heads while MYRTLE GRACE is perhaps the earliest. FALCON an excellent glad you will love.

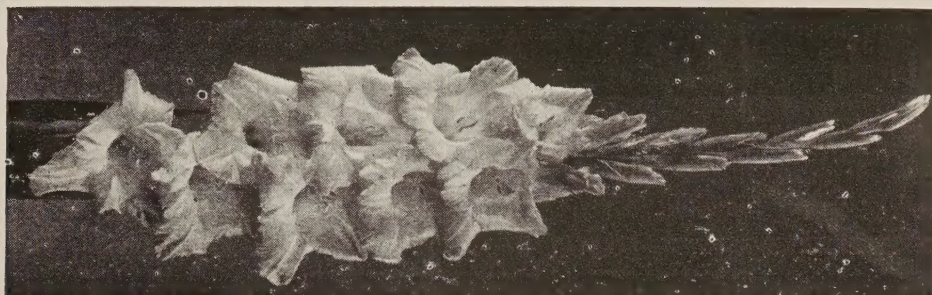

ORANGES: MARGARET JEAN won division championships all over the country and is still perhaps one of the best. The new PEACH GLOW while having some buff in it is heavily ruffled and a definite improvement in this color. The older LAKESIDE orange is still fine, and you just have to have DAISY MAE for its huge size and dependability. TASCO a new comer looks like a real orange. ENCORE, while showing some scarlet is basically an orange, and a completely dependable cutter, and show glad.

BLUES: Still a bit weak with BLUE BEAUTY leading the pack followed closely by RAVEL, FIRMAMENT, GREAT LAKES, BLUE LAGOON, the new BLUE BARON is definitely an improvement and being early will replace most of them when better known.

SMOKIES: STORMY WEATHER has won several grand champions this year, OPEACHEE is one of the best of the newer introductions. If you are looking for a good dependable Smokey in the low price field, SANDMAN is pretty hard to beat.

PURPLES: This class is definitely weak with PURPLE SUPREME probably the best known, but among the newer ones ROYAL ROBES and ALJECHIN look good and do not peel. They seem to stand handling much better than some of the others. The new KING DAVID appears to be the purple we have been looking for. Its performance has been grand, it's show record spectacular and coming from the introducer of SPIC & SPAN, it has to be good.

BUFFS: SUNSPOT still leads the parade and is too well known to describe. WILMA DITTMAN is an excellent commercial, IVY is one of the best, PACTOLUS outdid itself this year. The new PEACH GLOW, while leaning toward the orange side, is a knockout.

DREAM CASTLE

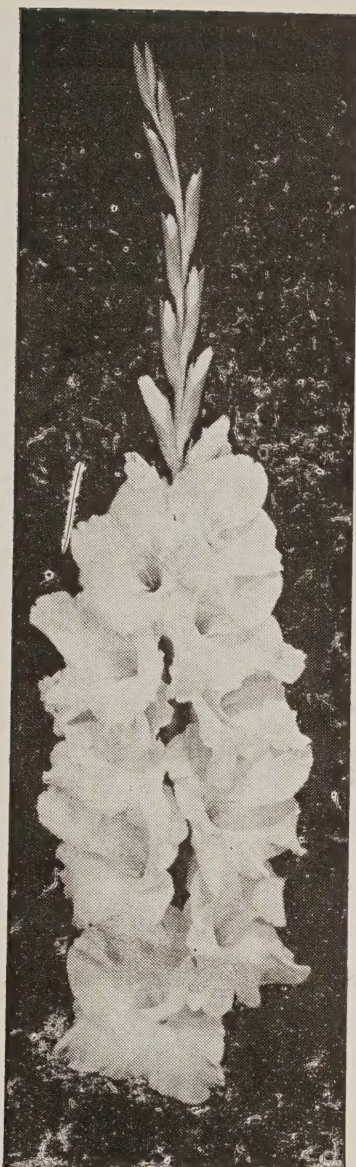

REDS: This is a big class, but there are really only a few that can be classed as good commercial dependable performers each and every season. I am including Scarlets in this class. **RHETT BUTLER** is the finest early scarlet in commercials, and I am getting wonderful reports on its performance all over the country and also in Australia. It is now cheap enough for everyone to grow, and when that first spike opens you will get a thrill from its brilliant color. **RED CHERRY** is good, **NANCY** always dependable. **RED CHARM** grown by the thousands is still able to compete with the best of them and wins its share of ribbons on the show table. **NINETY GRAND** is a dependable performer and you will like its straight spikes and 100% cutting ability. **DIEPPE** is the finest midseason scarlet and should be grown by the millions. The new **ROYAL FLUSH** is a marked advance in this color, and when cheaper will be grown by everyone. I have some rather startling red seedlings coming on that are heavily ruffled and needle pointd, on of which to be introduced in 1952. **MANDRIN**, a tomato red, is a new color break, and very beautiful. **RED WING**, always dependable.

PINKS: I am not including rose pinks because they are a large class in themselves. I am however, including the Salmons. **SPIC AND SPAN** one of the finest ever introduced, **JINI MARIE** another good commercial, **GAYLORE** as dependable as any I know of, **CITATION** for those who want them 72" tall, **FRIENDSHIP** one of the dantiest, and the new **DOROTHY MARGARET** is out of this world. **PINK SATIN** another beautiful glad, **DOLLY VARDEN** and **FRAZER** are big, tall and open eight easily. **GRACE DARLING** will win your heart and grow in dry sand and still perform. **SUPREME BEAUTY** will certainly rate among the top twenty-five or thirty, **COMPLEXION** another fine glad, the new **VANITY FAIR** is a milestone in blush pinks. **BONNIE BRAE** a 1951 introduction one of the best, **ANNE SHERMAN** from Ted Woods surely rates near the top. The new **HONEYDEW** and **PRAIRIE SUNSET** are good exhibitions and you will like them both. **DREAM CASTLE**, certainly one of the top 25 glads in commerce, and one you will eventually grow. **KOKOMO GIANT**, a giant indeed, grows 72" easily, with 7½" florets, that hold up. **MISS MADISON** is grand, a connisseurs glad. Earliest pink, coming in with **RHETT BUTLER**, and a humdinger for the early market, is **PHIPPS JR.** It will really make money for the early market. The new **VANITY FAIR**, is an exquisite blush pink you cannot overlook.

MADELINE HEFTY

SIERRA SNOW

JACK HARRIS

Thought you would like to see what these hybridizers look like. Here is Jack Harris, in his garden. "Smiling Jack" has some wonderful glads to his credit. Here are 3 for '51 **SIERRA SNOW:** A billowing white, of marvellous texture, grows 66" easily, with 30" flowerhead, opens 12, with 10 in color, 22 to 24 buds, heavy ruffling, and placement. Was runnerup for A.H.A. Medal at Madison after several hours on plane trip on hot day. Best seedling out of 197 seedlings shown at Niagara Peninsula Show, St. Catherines, Ont., and many other Special Awards. Tops Florence Nightingale by the same hybridizer, and that is something.

PEACH GLOW: A large buffy orange, with wide open well rounded florets, ruffled, very heavy texture, 19 to 21 buds 62" tall with 28" flowerhead, opens 8, with 8 in color. Winner of many special awards, in Canada and USA, and a most unusual, useful, and beautiful glad.

VANITY FAIR: A blush pink, with buff overlay, and with small cerise throat lines. Leathery texture, heavily ruffled, and needle pointed petals grows 60" easily, with 30" flowerhead, opens 8 with 8 in color, American Home Achievement Medal winner at Detroit, and several seedling awards during 1950. One of the most beautiful glads you ever saw.

For 3 such marvellous glads, this price will amaze you: \$2.00 each for any size corm, with bulblets at 35c each, or 3 for \$1.00, sold only with the purchase of at least one corm.

BIG JOE

EASTER MORN

SURPRISE PREMIUM CORM: Anyone purchasing all 3 of the Harris introductions, will receive free of charge, 1 corm of his marvellous new yellow glad, **FORSYTHIA**, as a premium bulb. This wonderful new yellow, was the finest yellow in my patch, and won several awards this past season. It will be introduced in 1952, at not less than \$2.00 per corm. It is ruffled, fluted, 5½" floret, grows 55" tall, with 20 buds, 8 open and 8 in color, perfectly beautiful for exhibition or commercial. One of the great yellows of all time, for you to grow, one year ahead of it's introduction.

Many buyers have expressed a desire to know the former originations of these hybridizers. Here is a list, in the order of their introduction, from 1950, back to about 1927. All are listed, with prices in the Recent Introductions, so will not attempt to describe or price them here. **STERLING**, **DOLLY VARDEN**, **FRASER**, **DAYBREAK**, in 1950. **GRACE DARLING** in 1949. **FLORENCE NIGHTINGALE** in 1947. **GAY-LORE**, **ARCTIC SNOW**, **HOSTESS**, **YANGTZE**. Most of them are still in commerce proving their real value.

PERCY BARRETT

Here is a much better picture of PERCY BARRETT, with a real smile, standing beside a future introduction, so good, he is really grinning. He has some great glads to his credit, and here are 6 for 1951:

VALDA: A huge, rosey lavender, more rose than lavender, 5½" floret grows 58", with 30" flowerhead, 22 buds, opens 8 with 8 in color, heavily ruffled and needle pointed petals. A stretchy Eliz. The Queen, on the rose side. One of his masterpieces.

EVENING STAR: This is without a doubt the most heavily ruffled white glad, pure white, texture like leather, grows 60" with 28" flowerhead, 6½" floret, opens 8, with 8 in color. Just examine that ruffling in the picture. You wonder how those buds will open but they do.

Above two, any size at \$5.00 per corm, bulblets 50c each, with purchase of corm. Not over 10 bbs. with each corm.

MARTHA WASHINGTON: A heavily ruffled lavender with cream throat, very colonial lavender, grows 55" tall, 30" flowerhead, 22 buds, 5½" floret, 8 open, 8 in color. A real exhibition, or commercial.

RED GLEAM: A heavily ruffled BEACON, scarlet with yellow throat, that is healthy, and remember how we all loved Beacon but it was not healthy, and many of us discarded it. This one is tough, in fact the thrip will not touch it for some reason or other. Grows 56", with 28" flowerhead 5½" floret, opens 8, with 8 in color.

HONEY DEW: A most unusual flesh pink, with greenish cream throat, almost char- treuse, ruffled and needle pointed petals 5½" floret, 22 buds, 7 open 7 in color, grows 56" tall with great substance, vigor and lasting qualities.

PRAIRIE SUNSET: A huge salmon, with deeper throat, on which are some small geranium throat marks, with 66½" florets, heavily ruffled, grows 60", with 30" flowerhead, 22 buds, opens 8 with 8 in color. A candidate for Champion Spike in any show.

Above 4 introductions popularly priced at L. \$2.00, M. \$1.50, S. \$1.00, bbs. at 25c each, with the purchase of one corm.

Former introductions of Percy Barrett are as follows: for 1950 ROYAL FLUSH (his most outstanding), ANGELA LYNN, EASTER MORN, PINK SATIN, DOROTHY MARGARET, for 1949 and earlier: AMERICAN BEAUTY, CHARLOTTE RUSSE, COLONIAL DAME, IVY, JINI MARIE, LEADING LIGHT MYRTLE GRACE, PEGGY FARRELL, SKYROCKET, STORMY WEATHER, STRATOSPHERE VIOLET DICKINSON, IVY ROBERTSON, LOVELY LADY, MARGARET BARRETT, and others. Here is one from that super-duper glad grower, who raises prize winning cattle, ducks, rabbits, and is always sweepstakes winner at several glad shows, my good friend SYDNEY MODE, of VANKLEEK HILL, ONTARIO:

BONNIE BRAE: A blush salmon pink, deeper at edges, lightening toward the throat. A perfectly dainty, and beautiful color in a real commercial glad, that grows 56" tall, with 26" flowerhead, 4½" floret, opens 8 that will keep in any kind of weather. Champion seedling at Hawksbury Show, and has won scads of prizes in Montreal and other Canadian Shows for the past 3 years.

FROM TED JEFFRIES, neighbor of Percy Barrett:

REGAL SPLENDOR: A grand light purple, with some red in it, that does not bruise, burn. Grows 56", with 26" flowerhead, 22 buds, 8 open, 8 in color. A grand addition to a weak color class, in a glad that makes a wonderful commercial, or exhibition. Has won several seedling awards.

Above two, at L. \$2.00, M. \$1.50, S. \$1.00, bbt. 25c each with the purchase of one corm.

FROM TED WOODS: See that picture of Ted and I, in good spirits, talking over some new seedlings, and you will know that this fellow is an alright guy, as they say, and has been producing some wonderful new things, which I am proud to cointroduce.

ANNE SHERMAN: A lovely shade of clear shell pink, with raised white midrib. Heavily fluted and ruffled, and the substance is like leather. I believe a single floret would last for days out of water. It's 5½" florets, 22 of them, on a tall, willowy spike growing 60" tall, have perfect placement and facing.

MISS MADISON: A large formal type, pale pink, shading to stronger pink at the edges, with a raised white midrib. Grows 60" in the field, with a 30" flowerhead. 5½" floret with 22 buds, one of Ted's finest.

MANDRIN: A tomato red self, with deeper red marking in the lower lip. 56" tall, with a 26" flowerhead, on a straight willowy stem, with 22 buds, heavily ruffled, and recurving. A new color break.

BLUE BARON: A new innovation in a very early blue. Straight spike grows about 45", with 23" flowerhead, 20 buds, slightly ruffled, opens 6, with 6 in color, has fine placement, and excellent lasting qualities. It blooms in about 65 to 70 days, which makes it an ideal commercial, especially in blue.

All 4 above introductions, any size corm \$5.00. With each corm purchased, you may have 10 bbt. for an additional \$5.00.

FROM COSMOPOLITAN GLAD GARDENS: Carlson's latest and finest.

KING DAVID: A royal, regal purple, of excellent form, texture, and ruffling, in just about the richest color you ever looked at. Winged, ruffled, fluted, it's satin-like 5½" florets, have pronounced picotee edging. Grows 60", with 28" flowerhead, with 22-24 buds, 10 open, 10 in color. Has won one A.H.A. Medal, and many awards all over the country. Will be as widely grown as SPIC & SPAN, from the same originator. **ANY SIZE CORM \$5.00-1 CORM & 10 Bbts \$10.00**

FROM C. C. MARSHALL:

GOLD: That name describes it perfectly. You may call it yellow but it leans more to chartreuse, and is just the color of gold. A fine big, wide open floret, 5½" heavily ruffled, grows about 55", with a 28" flowerhead. Extremely heavy texture, and one you will be hearing a lot about. Has a record of winnings, as long as your arm. Easily the finest yellow to date.

ANY SIZE CORM \$5.00-1 CORM & 6 Bbts \$10.00

FROM GEORGE WASHBURN:

KOKOMO GIANT: A huge pink, similar to Tivoli in color, but with a 7½" floret, growing 72" easily, with 22 to 26 buds, opens 7 with 7 in color. One of those easy growers, that will make a hit with the amateur, as well as the commercial man. The texture is excellent, and growth is rampant. Any size corm \$3.00. You may have 10 bbs. with each corm, at an additional \$2.00.

YELLOW SEA: We have had many good yellow miniatures, since YELLOWBIRD, but here is one that is ruffled, early, opens 6 grows about 46", makes a good commercial, and one of the finest show flowers you ever grew. Any size corm \$1.00 and with each corm purchased, you may have 10 bbs. for an additional \$1.50.

FROM J. J. MAREK:

WHITE STAR: A real early commercial white, of great health, and wonderful growth, lightly fringed and recurved, with star pointed florets. Grows 48" with a 24" flowerhead, 20 buds opens 6 with 6 in color. Resistant to rain and heat. L. \$2.00, M. \$1.50, S. \$1.00, 10 bbs. with each bulb at \$2.00 additional. Growers unit, 4 L, 4 M, 4 S and 50 bbs. for \$25.00.

FROM NINAH WARD: A Lee Fairchild creation:

LILA WALLACE: The Cinderella Glad. A perfectly gorgeous color in a velvety cerise, that makes you stop, look and listen. You will be reminded of Cinderella, when this gorgeous gal steps out in your garden in her lovely gown, having no fear of the carriage turning back into a pumpkin, or the horses into rats. Open 8 on an 18 bud spike, in a 300 size, that has beaten many in the 500 class. A very limited stock, and first come first served. Any size corm \$2.50, 25 mixed sizes at \$60.00. No bulblets this season.

FROM PAUL PLETCHER:

ROSY FUTURE: Here is another brand new color break, in a medium velvety rose, of sheer loveliness, about the color of Revlon Nail Polish. Grows 48" to 50", with a 27" flowerhead, 29 buds, opens 6 with 6 in color, and one of the most beautiful glads I have ever seen. Florets average between 4½ and 5", plain petalled, strong attachment, marvelous commercial and one of the topnotch glads of the year. Has a fine show record in Indiana. Any size corm \$2.00, and with each corm you may have 10 bbs. at 25c each. Grower Units 2M, 2S and 20 bbs. for \$7.00, or 2L, 3M and 5S, with 80 bbs. for \$25.00.

FROM PROF. FOREMAN MCLEAN:

ARABY: Our first really fragrant glad, in a smokey old rose with cream throat. Brings to mind the spicy fragrance of Persia, and smelling it makes you think of Cleopatra and the Lotus. A small glad, in the 300 size, but a very fine glad, besides being fragrant. Only 9 to 12 buds, 3 to 4 open at one time, but perhaps the fore-runner of an entirely new race of glads. Any size \$10.00, and for you hybridizers, this is cheap.

FROM MR. DALE:

NOVELTY QUEEN: Our first really fine glad in the double dragon type. Spurred like a columbine, with ruffles, and flounces, like a gay lady of the gay nineties, stepping out in her salmon gown, a most beautiful and useful glad, that will interest hybridizers, and amateurs alike. You will thrill to it's opening, and when fully opened, like the chap when he first saw a giraff, you will say, "There ain't no such animal". Any size corm \$10.00. First come, first served.

FROM CHARLES EVERETT:

GOLD THROAT: A glorified Burma, with a clear golden throat. I have grown this glad for 3 years, and have pestered the originator to introduce it, for my florists love it. Grows 55", with a 28" flowerhead, with 5" wide open florets, averaging 5". Extremely healthy, excellent propagator, A.H.A. Medal Winner, one of the finest for either exhibition or commercial. \$2.00 for any size corm, and with each corm purchased you may have 10 bbs. for \$2.00 extra.

FROM TOM ROGERS, a third generation hybridizer:

TASCO: A brilliant, glowing orange, like the color of the live embers of a coal fire, with a cream blotch. Named for a famous Mexican painter, who glories in those brilliant orangy red colors, so dear to the Latin American heart. Grows 58", with 20 to 22 buds, 8 open 8 in color, 520 Class. One of the real standouts in the years discoveries. \$10.00 each for any size corm and with each corm purchased, you may have 10 selected bulblets for \$5.00 extra.

ANNE SHERMAN

"ME" and MISS MADISON

Please don't think I have included all of the standouts. All I have listed, are fine, and very much worthwhile. These listed above seem somehow to stand out in my mind. If I attempted to tell you all about all the good ones I grew this season, it would take a complete catalogue, ten times larger than this, and very few of you would read it. I hope I have given you some highlights, that will serve as a guide, in making up your choice, for your 1951 order. Write me any time, for further information, and I am always happy and willing to give you my experience, with any glad I have ever grown.

FROM CHAMPLAIN VIEW GARDENS:

MARATHON: A beautiful clean clear yellow, which should have been named "Elmer's Delight". Grows 72" tall, with 18-22 buds, well placed, formal, 5" floret, opens 6-7, and will open from tight bud, right to the tip. The greatest yellow commercial for the cut-flower trade ever introduced. I have not seen this one, but when Elmer Gove says it is TOPS, that is good enough for me. Any size corm \$2.00 each, and you may have 1 corm and 10 selected bulblets for \$5.00. Growers Units 10L, 10M, 10S and 300 bbs. for \$125.00.

FROM CHAS. A. EVERETT, Courtesy Champlain View Gardens:

HARRIET: One of the classiest purples in the business. Simply beautiful, lively, deep clear purple, ruffled and waved, in the 300 class, grows 54", with a 27" flowerhead, opens 7-8 4" blooms, and is without a doubt the best in it's size and color. Has won numerous awards, and has scored all the way from 85 to 89½. This glad is easily worth \$5.00, but the price will be \$2.00 each, for any size corm, and with each corm purchased you may have 10 bbs. for \$3.00.

FAN: A fine lively rose, with the mid-rib having a ¼" stripe of a deeper rose or cerise. It has a smaller deeper rose blotch in the throat. The mid-rib stripe sets this variety apart as being entirely distinctive, and very attractive. 60" tall, with 28" flowerhead, opens 6-7, 5" florets. A growin' fool if there ever was one. Any size corm \$2.00 and with each corm purchased you may have 10 bbs for \$2.00 additional.

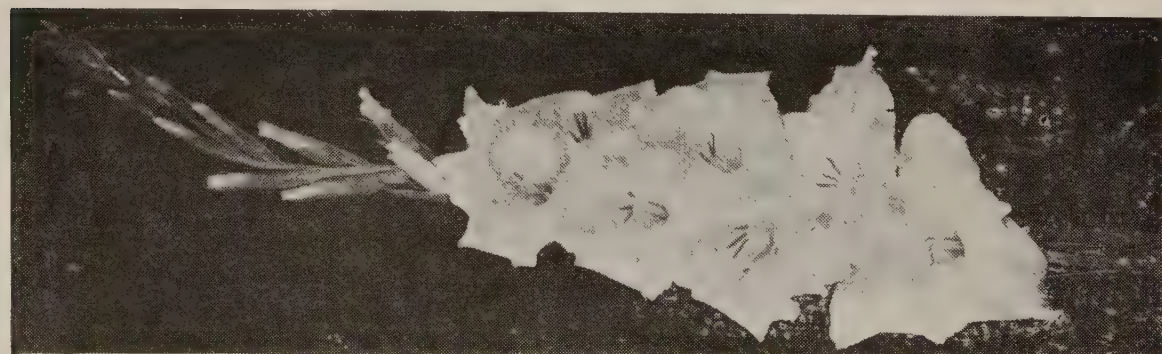

**MRS. WASHBURN and
KOKOMO GIANT**

YOURS TRULY and TED WOODS

KATHY LEE

FLORENCE NIGHTINGALE

HERE IS A LIST OF RECENT INTRODUCTIONS, WHICH HAVE PROVEN MERIT AND WHICH MANY OF YOU WILL WANT TO LOOK OVER, RATHER THAN HAVE THEM INCLUDED IN THE GENERAL LIST. YOU WILL NOTE THAT THESE INCLUDE THE 1950 INTRODUCTIONS.

AMELIA: A beautiful medium pink, ruffled, fluted, with throat. One of last year's highlights.

L. \$2.00, M. \$1.25, S. \$1.00, bbts. 20c each.

AMERICAN BEAUTY: A fine rose, several shades deeper than Miss Wisconsin, heavily ruffled.

L. \$1.00, M. 75c, S. 50c, bbts. 10c each

ADONIS: Ted Woods beautiful white.

L. \$2.00, M. \$1.50, S. \$1.00, bbts. 20c.

ADORABLE: A blush pink with cream throat, very beautiful.

L. \$3.00, M. \$2.00, S. \$1.00, bbts. 25c.

ARIA: Kuhn's fine salmon miniature, winner wherever shown.

L. \$2.00, M. \$1.50, S. 75c, bbts. 20c each.

BLUE LAGOON: A really fine new blue, from Geo. Snyder. Looks like a good commercial too.

L. 35c, M. 20c, S. 2 for 30c.

BIG JOE: Last year's sensational winner. A huge fireman's red, that can win Champion spike easily.

Any size corm \$3.00, bbts. 30c each.

BONFIRE: As red as a bonfire, good big exhibition, a flame in the garden.

L. 50c, M. 35c, S. 25c, bbts. 4 for 25c.

EOISE BELLE: One of the best in it's class, a fine ruffled salmon with silvery edge, opens 12 easily.

L. \$1.00, M. 75c, S. 50c, bbts. 2 for 20c.

BRIDAL ORCHID: One of the top-notchers introduced in 1950, has won numerous championship spikes, a really great lavender and one you will eventually buy.

L. \$3.00, M. \$2.50, S. \$2.00, bbts. 90c each.

BROWN EYES: Andy Maier's fine yellow, with brown throat darts.

L. \$2.50, M. \$1.50, S. \$1.00, bbts. 15 for \$2.00.

CAPTAIN KIDD: A great medium dark red, from Win. Roberts, and one of the best in it's class.

L. \$3.00, M. \$2.50, S. \$1.50, bbts. 25c each.

CHARLOTTE RUSSE: A perfectly beautiful soft cream, with throat, and several times winner as division champ.

L. \$1.00, M. 75c, S. 50c, bbts. 10c each.

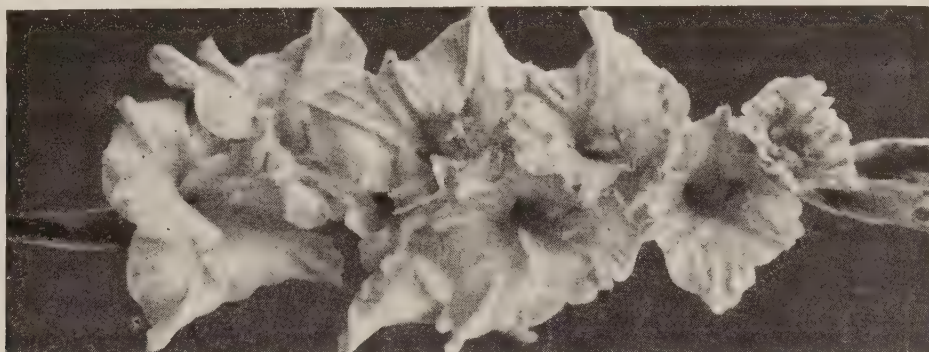

CHINOOK: Rev. Lines huge salmon, that still knockes them for a loop to win Grand Champ.

L. \$2.50, M. \$2.00, S. \$1.50, bbts. 15 for \$2.00.

CITATION: Perhaps the tallest pink in existence. Will grow 72" easily, strong, stands upright, even in wind, and a fine clean pink, with cream throat.

L. \$1.50 M. \$1.00, S. 50c, bbts. 10 for \$1.50.

VOGUE

CLEO: A swell buff and cream combination, very dainty and very chic.

L. 75c, M. 50c, S. 25c, bbts. 20 for \$1.00.

- STRAUSSENFEDER:** (Means Ostrich Feather), a Pfitzer creation, in a huge heavily ruffled and needle pointed shrimp pink with geranium throat marks. Grows 66", opens 8 easily, a good commercial and exhibition.
L. 50c, M. 35c, S. 20c, bbts. per pkt. 25c.
- TIVOLI:** A much improved Rosa Van Lima, in a finer shade of pink that is taller, brighter. A fine commercial.
L. 2 for 25c, M. 3 for 25c, S. 4 for 25c, bbts. per pkt. 25c.

TROCADERO: A carrot, orange salmon glad, which has also been overlooked. It can make a huge spike, in a most distinctive carrot color.

L. 35c, M. 25c, S. 3 for 20c, bbts. pkt. 25c.

WARD'S STRAIN OF BURMA: Here is a strain of BURMA that is different in everything except color. The color is the same but this selected strain opens 8 in the field, does not burn, ships and handles well, and for this reason, is worthy of special mention.

L. 50c, M. 35c, S. 25c, bbts. pkt. 25c.

W. R. READER: A swell big salmon, with white throat, that comes in early, blooms in about 65 days. Makes the finest corms you ever saw. Another good one for the early cut-flower market.

L. 2 for 25c, M. 3 for 25c, S. 4 for 25c, bbts. pkt. 25c.

WEDGWOOD: A very beautiful lavender, with cream throat, ruffled frilled, the prettiest miniature in its color.

L. 20c, M. 3 for 25c, S. 6 for 25c, bbts. pkt. 25c.

YELLOWBIRD: Our finest plain petalled golden yellow miniature, with no throat, just plain clear yellow. It wins every time in it's class.

L. 25c, M. 2 for 25c, S. 4 for 255c, bbts. per pkt. 25c.

BLONDIE: One of Lins' finest, in a beautiful 4" ruffled cream on 48" spikes, in Class 306, which does not have to depend on it's size to win. One of our finest basket glads.

L. 50c, M. 35c, S. 20c, bbts. 10 for 50c.

TREASURE ISLAND: An exquisite ruffled and fluted pink, in the color of Rosa Van Lima, with extra good texture and one of our finest commercials.

L. 40c, M. 30c, S. 15c, bbts. 10 for 40c.

GENERAL BULB LIST

ABIGAIL: A fine lavender commercial same color as Minuet, but good propagator.

L. 15c, M. 10c, S. 4 for 25c, bbts. 25 for \$1.00.

ADORATION: Orchid pink, with creamy throat. Early and fine.

L. 25c, M. 20c, S. 15c, bbts. 15 for \$1.00.
